

# THE NEXT STEP

## SOUTH BUILDING EXPANSION

Creating a place people love,  
so they can experience a  
loving God.

# Why now?

## What's next?

At Realife Church, we've always believed in making room—for people, for families, and for the next move of God. That's what this South Expansion is all about.

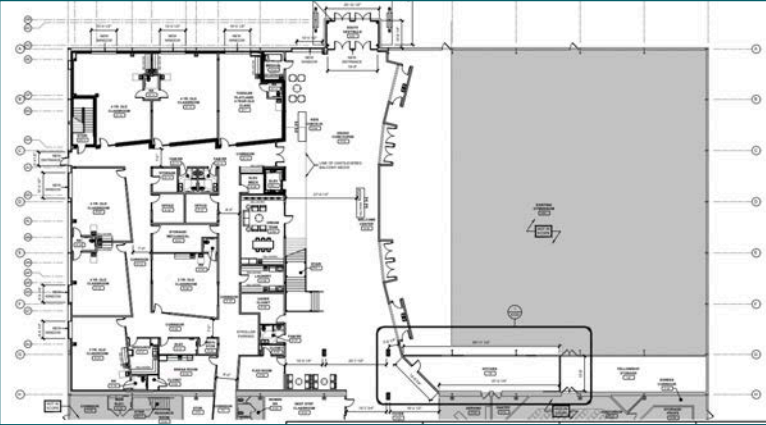

As part of our long-term master plan, we know that one day we'll need a bigger auditorium. But right now, the need is clear: we must make more room for kids and next steps. Our STEAM Academy is growing fast, new families are walking through the doors each week, and our next generation spaces are ready for a major upgrade.

### So here's what's coming:

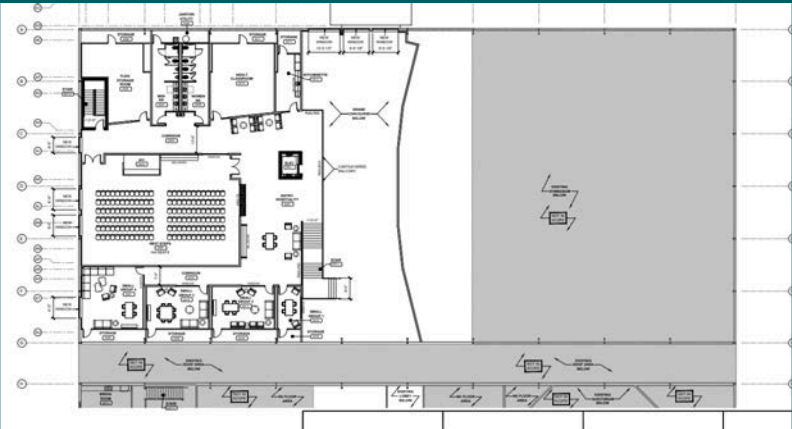

- A new main entrance on the south side, creating a clear and welcoming first impression
- A grand concourse that connects the entire building and improves flow for families and guests
- An expanded STEAM & Preschool Wing—doubling weekday capacity and impact
- A brand-new elementary room for K–5th grade, designed for worship, fun, and lifechange
- New adult classrooms and a Next Steps Room to help people grow in faith and take their next step

We're stepping into this now because God has provided in a big way. Through a \$1.5 million grant, He's given us a clear green light—and we're moving forward with faith and excitement.

# PROJECT TIMELINE

---

"We've been planning this for years, and now God has opened the door. With growth happening all around us and the grant in hand, it's clear—this is the right time to move forward."  
- Pastor Adam Detamore

**Final Inspections**

## SUMMER 2026

---

**Grand Opening**

"Church is more than just fun for our kids. They're learning how to build a real relationship with Jesus – praying boldly, worshiping freely, and engaging with scripture."

"What means the most to me as a parent, is my kids want to be at church. That kind of excitement is something that's nurtured in a ministry that truly sees and values each child."

"STEAM Academy has provided my children with a safe and supportive environment, while helping them develop their social and emotional skills."
